Local Man Makes "Beetle Traps"

Mr. Robert Walton of Route 4, Appomattox, is shown above with "home made Japanese Beetle Trap". He makes these traps using plastic jugs and plastic bags with bottle at top.

At least one gallon of the beetles are shown in the bags above.

Mr. Walton says he will be happy to show anyone how to make the traps or would make them for anyone. He feels that if everyone would use the traps, we would get rid of the pests. Bait can be bought from any hardware store. You put the trap away from your garden and the bait draws the beetles to the trap.
